Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but cannot harm it. If wanted merely for HAIR DRESSING, nothing elegant can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination, impurities or diseases that have lurked in the system for years soon yield to its powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula**, and all scrofulous diseases, **Ulcers, Eruptions**, and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm**, and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility**, and **Leucorrhœa**, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season, when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

☞ Purely Mutual, Equitable, Progressive and Secure. Twenty-seven years of Business Experience.

Assets, - $21,000,000!

Safely Invested and rapidly Increasing.

Within the last quarter of a century the business of this Company has embraced the acceptance of over ninety thousand men as members, the receipt of over $31,000,000 in premiums, the payment of nearly $8,500,000 in losses to the representatives of deceased members, and dividends notably returned (not promised) amounting to over $9,000,000 to the assured. At the same time the assets have accumulated and offer absolute security. The present business of the Company is represented in the receipt of ten thousand applications for Policies per annum, and an annual income of over $7,000,000.

All desirable forms of Insurance are granted on the most practical plans, embodying the well-known non-forfeiture feature originated by this Company in 1860.

In addition to the above a new feature has recently been introduced by this company called the "Tontine Investment System," which combines the advantages of the Tontine Annuity and Life Insurance. Upon this new plan it is confidently expected that the dividends will far exceed those now declared by any other Company.

Further particulars in regard to this and all other plans of Insurance will be cheerfully furnished upon application to

A MONSTER ANVIL.

Vulcan himself, with all the swart giants who worked at the God's smithies under Etna, never owned such an anvil as will soon be in use in the new rolling mills at Woolwich, England. For a long time past the engineers have been busy at the Royal gun factories of the arsenal in constructing this Titanic piece of iron-mongery, and they are now depositing in its place the enormous plate which is to form the bed of the anvil block. This plate of itself weighs 107 tons, and had to be cast of necessity in an open mold. The surface which is to receive the anvil-block jay, therefore, downward, and when, after many weeks, the colossal casting grew cool, it was needful to turn the huge mass completely over. At the appointed time an army of sturdy smiths undertook this task with hydraulic jacks, and a combination of the strongest tackle; before night they had lifted the monstrous lump of solid matter, twenty-two feet square, and since then they have laid it on its bed upon the rock-like structure of concrete and piles made to receive it. The anvil-block to be mounted on the huge plate will only weigh a trifle short of two hundred tons, and the steam hammer which will strike upon it is made of 35 tons of solid metal, the blow at full force, being, of course, tremendous. In fact, it is rather doubtful what will happen to Woolwich and vicinity when the mighty piece of mechanism gets to work. That the earth around will shake and the air roll with measured thunder seems probable; for nothing like this stupendous forge has ever been set to work since the bolts of Jove were hammered. Thor's famous weapon was a mere driver of tin tacks compared with it; and, indeed, the old Norse god, for all his huge strength, would be puzzled to throw this Woolwich tool—which, taking all its metal work together, weighs hard upon five hundred tons.

THE CORN CROP.

The prospects for the corn crop have seldom been so unfavorable as they are this spring. The long continued wet weather is almost without precedent. Only the higher lands in the great corn regions have been prepared for the crop, and it will be far into June before the lower lands can be planted. Thus the average will be largely reduced. Intelligent farmers inform us that they do not look for more than two-thirds the product of last year in this State, and in Iowa and Missouri there will be a very material falling off. Should early frost prevail in the fall, even this estimate will be seriously reduced. In view of these facts and probabilities there is but one course to pursue with the product now on hand, and that is to hold it. This will not be a "ten cent" corn year, and there will be a lively demand for the corn of 1872. our advice to every farmer, whose financial condition will allow of it, is to hold his corn for the better prices that are to prevail as the season advances. Of course, a short corn crop means a general rise in the price of other grains.—*Prairie Farmer.*

A YANKEE ATTEMPT TO DECIDE A BET.

From the Boston Traveler.

Recently a couple of clerks were discussing, after the close of a day's work, as to the relative amount of work at their respective desks. Each averred that his was the "hardest desk." Finally they "bet" a dollar each, and agreed to put the money in a third clerk's hands and await his decision.—The next morning one of the disputants inquired of the third party if he had decided the case. He deliberately replied: "No, I shall reserve my decision!" Shortly afterwards this referee was sick and at home a couple of days. On his return he told his interested friends that he had been "sitting on that case and found that it would have to come before the full bench in October." Also that "the costs of court had amounted to $1.80, and only twenty cents would come to the lucky man." Both now regard their case as hopeless.

Captain Stauffer, who in 1865 earned a world-wide fame by his daring gallantry in rescuing 250 souls from the steamer San Francisco, died in New York, Tuesday night. The gallant captain at that time commanded the ship Antarctic, when he saw the San Francisco in a disabled condition. He lay by the sinking vessel three days, keeping up the spirits of the people on board by the words, "Be of good cheer; I will stick by you," which were displayed from the stern of his ship. The gallant deed was recognized by Congress, who voted to Captain Stauffer a gold medal and $8,000 in money, while the city authorities of New York and Philadelphia, and the merchants of Boston and other cities took similar action.

Immense damage has been done in Iowa and Kansas by the late violent rains. Streams have overflowed their banks, bridges been swept away, and in many cases landslides have occurred, greatly delaying railway trains.

The poorest education that teaches self-control is better than the best that neglects it.

$10,000 for only Ten Dollars.

ENOUGH of the 100,000 tickets issued for the THIRD GRAND GIFT CONCERT, in aid of the Public Library of Kentucky, having been sold to insure a full drawing, and the wish having been universally expressed that the 10,000 cash gifts offered should be drawn in full and paid in full without any scaling down, as heretofore, the management, with the concurrence of the trustees, have determined to allow ninety days more for the sale of the remnant of tickets left on hand. The concert and distribution advertised for April 8, is therefore postponed to Tuesday, July 8, 1873, on which day, and no other, they will positively and unequivocally take place in Public Library Hall, Louisville, Ky.

The money to pay all these gifts in full is now upon deposit in the Farmers' and Drovers' Bank of Louisville, and set aside for that purpose, and can only be used for that purpose, as will be seen by the following certificate of the Cashier:

This is to certify that there is in the Farmers' and Drovers' Bank, to the credit of the Third Grand Gift Concert, for the benefit of the Public Library of Kentucky, five hundred thousand dollars, which has been set apart by the managers to pay the gifts in full, and will be held by the bank and paid out for this purpose, and this purpose only.
H. S. VEECH, Cashier.

The party, therefore, who holds the ticket drawing the capital gift will get $100,000 in greenbacks, and so of the $50,000 gift, the $25,000, the $20,000, the $10,000, the $5,000, and all the other gifts, 10,000 in number, amounting to $300,000.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so unsightly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination, impurities or diseases that have lurked in the system for years soon yield to its powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula**, and all scrofulous diseases, **Ulcers, Eruptions,** and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm,** and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility,** and **Leucorrhœa,** when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season, when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

Safely Invested and rapidly increasing.

Within the last quarter of a century the business of this Company has embraced the acceptance of over ninety thousand men as members, the receipt of over $31,000,000 in premiums, the payment of nearly $8,500,000 in losses to the representatives of deceased members, and dividends retainedly returned (not promised) amounting to over $9,000,000 to the assured. At the same time the assets have accumulated and offer absolute security. The present business of the Company is represented in the receipt of ten thousand applications for Policies per annum, and an annual income of over $7,000,000.

All desirable forms of Insurance are granted on the most practical plans, embodying the well-known non-forfeiture feature originated by this Company in 1860.

In addition to the above a new feature has recently been introduced by this company called the "Tontine Investment System," which combines the advantages of the Tontine Annuity and Life Insurance. A MONSTER ANVIL.

Vulcan himself, with all the swart giants who worked at the God's smithies under Etna, never owned such an anvil as will soon be in use in the new rolling mills at Woolwich, England. For a long time past the engineers have been busy at the Royal gun factories of the Arsenal in constructing this Titanic piece of iron-mongery, and they are now depositing in its place the enormous plate which is to form the bed of the anvil block. This plate of itself weighs 107 tons, and had to be cast of necessity in an open mold. The surface which is to receive the anvil-block lay, therefore, downward, and when, after many weeks, the colossal casting grew cool, it was needful to turn the huge mass completely over. At the appointed time an army of sturdy smiths undertook this task with hydraulic jacks, and a combination of the strongest tackle; before night they had lifted the monstrous lump of solid matter, twenty-two feet square, and since then they have laid it on its bed upon the rock-like structure of concrete and piles made to receive it. The anvil-block to be mounted on the huge plate will only weigh a trifle short of two hundred tons, and the steam hammer which will strike upon it is made of 35 tons of solid metal, the blow at full force, being, of course, tremendous. In fact, it is rather doubtful what will happen to Woolwich and vicinity when the mighty piece of mechanism gets to work. That the earth around will shake and the air roll with measured thunder seems probable; for nothing like this stupendous forge has ever been set to work since the bolts of Jove were hammered. Thor's famous weapon was a mere driver of tin tacks compared with it; and, indeed, the old Norse god, for all his huge strength, would be puzzled to throw this Woolwich tool—which, taking all its metal work together, weighs hard upon five hundred tons.

THE CORN CROP.

The prospects for the corn crop have seldom been so unfavorable as they are this spring. The long continued wet weather is almost without precedent. Only the higher lands in the great corn regions have been prepared for the crop, and it will be far into June before the lower lands can be planted. Thus the average will be largely reduced. Intelligent farmers inform us that they do not look for more than two-thirds the product of last year in this State, and in Iowa and Missouri there will be a very material falling off. Should early frost prevail in the fall, even this estimate will be seriously reduced. In view of these facts and probabilities there is but one course to pursue with the product now on hand, and that is to hold it. This will not be a "ten cent" corn year, and there will be a lively demand for the corn of 1872. our advice to every farmer, whose financial condition will allow of it, is to hold his corn for the better prices that are to prevail as the season advances. Of course, a short corn crop means a general rise in the price of other grains.—*Prairie Farmer.*

A YANKEE ATTEMPT TO DECIDE A BET.

From the Boston Traveler.

Recently a couple of clerks were discussing, after the close of a day's work, as to the relative amount of work at their respective desks. Each averred that his was the "hardest desk." Finally they "bet" a dollar each, and agreed to put the money in a third clerk's hands and await his decision.—The next morning one of the disputants inquired of the third party if he had decided the case. He deliberately replied: "No, I shall reserve my decision!" Shortly afterwards this referee was sick and at home a couple of days. On his return he told his interested friends that he had been "sitting on that case and found that it would have to come before the full bench in October." Also that "the costs of court had amounted to $1.80, and only twenty cents would come to the lucky man." Both now regard their case as hopeless.

Captain Stauffer, who in 1865 earned a world-wide fame by his daring gallantry in rescuing 250 souls from the steamer San Francisco, died in New York, Tuesday night. The gallant captain at that time commanded the ship Antarctic, when he saw the San Francisco in a disabled condition. He lay by the sinking vessel three days, keeping up the spirits of the people on board by the words, "Be of good cheer; I will stick by you," which were displayed from the stern of his ship. The gallant deed was recognized by Congress, who voted to Captain Stauffer a gold medal and $8,000 in money, while the city authorities of New York and Philadelphia, and the merchants of Boston and other cities took similar action.

Immense damage has been done in Iowa and Kansas by the late violent rains. Streams have overflowed their banks, bridges been swept away, and in many cases landslides have occurred, greatly delaying railway trains.

The poorest education that teaches self-control is better than the best that neglects it.

LIBRARY GIFT CONCERT!

A Full Drawing Certain

$500,000 in Bank to pay Gifts.

10,000 Cash Gifts paid in Full.

$10,000 for only Ten Dollars.

ENOUGH of the 100,000 tickets issued for the THIRD GRAND GIFT CONCERT, in aid of the Public Library of Kentucky, having been sold to insure a full drawing, and the wish having been universally expressed that the 10,000 cash gifts offered should be drawn in full and paid in full without any swelling down, as heretofore, the management, with the concurrence of the trustees, have determined to allow ninety days more for the sale of the remnant of tickets left on hand. The concert and distribution advertised for April 8, is therefore postponed to Tuesday, July 8, 1873, on which day, and no other, they will positively and unequivocally take place in Public Library Hall, Louisville, Ky.

At this grand concert the following cash gifts will be distributed by lot and paid in full to the ticket holders who draw them:

Total, 10,000 gifts, all cash		$300,000

The money to pay all these gifts in full is now upon deposit in the Farmers' and Drovers' Bank of Louisville, and set aside for that purpose, and can only be used for that purpose, as will be seen by the following certificate of the Cashier:

This is to certify that there is in the Farmers' and Drovers' Bank, to the credit of the Third Grand Gift Concert, for the benefit of the Public Library of Kentucky, five hundred thousand dollars, which has been set apart by the managers to pay the gifts in full, and will be held by the bank and paid out for this purpose, and this purpose only.

H. S. VEECH, Cashier.

The party, therefore, who holds the ticket drawing the capital gift will get $100,000 in greenbacks, and so of the $50,000 gift, the $25,000, the $20,000, the $10,000, the $5,000, and all the other gifts, 10,000 in number, amounting to $300,000.

The remnant of unsold tickets will be furnished to those who first apply (order accompanied by the money always having preference over agents) at the following prices: Whole tickets, $10; halves, $5; quarters, $2.50; 11 whole tickets for $100; 58 for $500; 118 for $1,000; and 575 for $5,000. No discount on less than $100 worth of tickets at a time.

DECATUR, ILLINOIS:

Tuesday Evening, June 3:

THE RESULT.

The returns from the judicial election, though still somewhat meagor, are sufficient to indicate that C. B. Smith is elected by a considerable majority. To prevent such a result we have labored faithfully, though we are now free to say that we have never had much hope of a different one. It has been our firm and honest conviction that the best interests of all classes of citizens would be best subserved by the election of Judge Gallaghor, and, believing so, we did all in our power to achieve a victory. We have no regrets to express for our course in this matter, but sincerely trust that the successful candidate may prove to be a better officer than his past record and character would warrant us to expect. He is our judge, as well as the judge of those who supported him, and we are not sinister enough to hope that he may turn out badly merely to justify our predictions. We are willing to bow gracefully to the popular verdict, and cherish the hope that the country has not altogether gone to the dogs because of the defeat of our candidate. The contest has been a bitter one, but now that it is over we trust that the animosities engendered by it may die out, and everything assume the roseate hue that adds so much to the popular comfort.

THE interlacing of different branches of industry is a curious study. For example, the state constabulary of Massachusetts had no sooner indicated their intention to enforce the law forbidding the sale of malt liquors than the price of milk advanced. This is not to be attributed, as might be supposed, to an increased demand; for when the guzzler of beer finds himself deprived of his preferred fluid, he does not rush immediately to the nearest dairy and seek compensatory comfort in milk. The explanation is this The dairymen largely use Brewers' grain as provender for their milch-cows. This kind of feed is cheap and nourishing, and though there are doubtless some objections to its use, it is not to be denied that it increases the yield of milk, especially as compared with dry food. But the brewers have taken the alarm at the activity of the authorities, and have suspended operations. Thus the milk producers are shut off from this large source of food supply for their animals, which compels them to use meal and other costly substitutes. This is quite sufficient as a reason for them to increase the price of their commodity.

AND now comes the story of the woman who dreamed a dream in which was depicted with dire reality the woeful occurrence of the bridge disaster at Dixon. Why did she not tell her warning and save the lives of those fated victims for whom that beautiful Sabbath morning dawned in sudden death? No doubt this lady will gain a notoriety equal to if not greater than that of Mrs. O'Leary's cow or Washington's body servant. There hasn't been an aged negro died for the last twenty years but that he was the one, identical, particular favorite servant of the "Father of his Country," and there hasn't been a cow for the last two years, that was whittled up into "hash," but that she was the same identical, particular cow whose playful kick gave us "The History of Chicago as it *was*," and now again for years and years there won't be a woman who will dream a dream, but will be the same, identical, particular woman who dreamed all about the Dixon disaster, days *before* it occurred and then forgot to say anything of it until days *after* the poor victims had "found rest." Out upon *such* dreams! Don't tell them.

One of the greatest drains on the wealth of this country is caused by the popular fashion of visiting Europe, which is largely stimulated by the Exposition at Vienna this summer. It is estimated that 21,000 first class passengers will cross the Atlantic the present season. These tourists will pay about $3,300,000 passage money, and it is calculated that they will spend in travel and hotel bills on the continent some $8,000,000 more. Most of them will take with them very little clothing or jewelry, but will come back with a very large supply. The number of Americans who visit Europe for pleasure outnumbers by many times the Europeons who come to this country for a like purpose. Besides this, the foreigners who come here spend hardly anything for clothing, and in the case of either foreigner or native the passage money goes to foreign parts. Over a million dollars worth of gold is every large sum for a native poor indeed to spend in for-

CHICAGO, AS SEEN BY THE DANBURY "NEWS" MAN.

From the Danbury News, May 28

Chicago is on a prairie, and consequently the streets are a dead level and as straight as an arrow. Its newspapers are widely known, and several of them have grand offices. When a New York paper puts up a fine office, it announces it repeatedly before the plans are drawn and other papers speak of it, and then a magizine article is made up about it, and the country generally is stirred up and made miserable on account of it; the Chicago newspapers don't do so. They don't say anything about it until their building is finished and occupied, and yet, with a single exception, that of the *Herald*, they have finer offices than their New York contemporaries. Your correspondent has met some of these people, and finds them as genial as their enterprise is undisputed.

They have tornadoes here. I have read of them. I am going away at midnight, and there is a gentle zephyr now playing over the city in honor of the event. Last night a dead calm hung over the city, and eight or ten dwelling houses were blown down. There is a stiff breeze now, and it is not likely a whole paving-stone will be found in the city by morning.

Chicago is ahead in about everything but the means of transportation. The street cars look as if they were born in an alley, and some of the omnibuses are double-deckers, and are merely mud dredges disguised with paint.

A hitching post is a rarity here.—When an Eastern man comes across a hitching post in Chicago he sits down and cries They faston horses by a strap to an iron weight which is left on the sidewalk. These weights occupy a prominent position in a runaway. When a Chicago man sees a runaway horse coming along his street he merely says: "Heaven protect us," and crawls under a stoop.

COMPOUNDING A FELONY.

A late dispatch from Troy, N. Y., gave the pleasant information that "three hundred thousand dollars worth of bonds, stolen from the Waterford (N. Y.) bank, have been returned by the thieves, who have received thirty-five per cent and immunity from punishment."

Thirty-five per cent. of three hundred thousand dollars is one hundred and five thousand dollars; a sum which will very handsomely pay a dozen ruffians for making a night trip to Waterford, scaring a cashier into unlocking the safe of his institution, and then keeping quiet about it for a few months. The arrangement above alluded to used to be called compounding felony, and was supposed to be prohibited by law. A few more examples of its successful and unchallenged introduction into practice will make the business of bank robbing on shares nearly as popular and remunerative as that of watering railroad stock, or cornering gold in Wall street And indeed, why not?—*Bloomington Pantagraph.*

THE managers of most of the Western railways are moving toward the abolishment of the free pass system. They complain of it as an immouse burden, amounting on some of the roads to nearly one tenth of the entire passenger traffic. They also assert that it is an unjust discrimination," that by the laws of Illinois, at least, they have no right to practice. If the taxation, that the system entails upon the companies can be raised, we shall have one more plea for cheaper passenger rates, and the benefit will go to the public where it belongs. Give the farmers cheap passenger fare and they will travel more, see more, and know more of the business of the world that surrounds them. Cut off the passes and put down the rates!—*Prairie Farmer.*

All of which is very true, but the query naturally arises whether there is much hope of the abolishment of the free pass system as long as the papers which assume to be the special champions of the farmers, continue to ask for and receive more passes than anybody else.

JUDICIAL ELECTIONS

PROBABLE ELECTION OF LAWRENCE AND SCHOLFIELD.

The old Judges Re-elected in Chicago,

BEECHER OUT IN A CARD.

NEW YORK, June 2.—The following card was published to-day.

To the Editor of the Brooklyn Eagle:

DEAR SIR: I have maintained silence respecting the slanders which have for some time past followed me. I should not speak now but for the sake of relieving another of unjust imputations. The document which was recently published, bearing my name with others, was published without consultation with me or with Mr. Tilton; nor with any authorization from us. If that document should lead the public to regard Mr. Tilton as the author of the calumnies to which it alludes, it will do him great injustice. I am unwilling that he should even seem responsible for injurious statements whose force was derived wholly from others.

HENRY WARD BEECHER.

CHICAGO, June 2.—The election in this county to-day for five judges of the Circuit Court has resulted in the election of all the incumbents—Farwell, Williams, Rogers, Tree and Booth. A strong fight was made against the latter by the whisky party, on account of a recent decision by him against the liquor trade, and that element concentrated upon Sam. Ashton. Much fear was felt lest he should be successful, but the returns to midnight indicate that Booth has 2,500 majority in the city and about 3,500 in the county. The other candidates had no opposition. The vote was light, being only about 13,000 in the city and under 20,000 in the county.

In Lemont, a stronghold of the liquor men, Ashton received only 32 to 718 for Booth. In Evanston, a Methodist suburb, Booth received every vote, 418. Temperance men are greatly rejoiced at the result, as the Germans had united strongly for Ashton.

Returns from the Fifth District make the contest between Craig and Lawrence, for Supreme Judge, still doubtful, with a probability for Lawrence.

NEW ORLEANS, June 2.—In his address, Governor McEnery says:—"President Grant as chief magistrate of the nation, has assumed the high and grave responsibility of foisting upon the people of this State usurpation without precedent in this or any other free country. He is answerable before the bar of public opinion for this high-handed measure. The President, with the army and navy at his command, has the physical power to coerce the people of this State into any line of policy he may dictate. It would be folly and madness to interpose resistance likely to bring up conflict with the national authority. Yet the deeply fixed sentiments of irresponsible hostility in the minds and hearts of an outraged people, against the vilest usurpation ever attempted to be fastened upon freemen, will find their full scope and vent. I advise that these manly and patriotic sentiments take form and shape through all moral and legal agencies possible to be used. In the meantime, I trust peace and order may reign supreme throughout the State, and that our industrial pursuits will be unembarrassed by political difficulties; and, especially, I urge upon the people of the two races numerically nearly equal in this State, to cultivate one towards another nothing but feelings of amity, good feeling and mutual understanding."

SAN FRANCISCO, June 2.—The following dispatch is just received here via Yreka:

CAMP AT APPLEGATE'S HOUSE, CLEAR LAKE, June 1.—The troops this morning were divided into scouting parties and sent out as scouts after Captain Jack. Captain Perry of the 1st Cavalry, who was sent out yesterday, had not been heard from when the scouting party left this morning. An hour after the scouting party left, Captain Perry's mounted men were seen in the distance rushing toward camp, and when the camp shouts were heard from them of "We have got Captain Jack."

Captain Perry, who captured Jack, had been out twenty-four hours. At 10 o'clock Sunday morning, Perry's scouts struck a fresh trail and followed it three miles above the mouth of Willow Creek, when Captain Jack's hiding place was discovered. He was completely surrounded. Captain Perry was making preparations to attack the Modocs, when suddenly a Modoc appeared with a white flag. The Modoc met a Warm Spring Indian, and reported that Jack was anxious to surrender. Five Modocs were sent to meet Jack. Captain Jack then, with two warriors, five squaws and seven children, surrendered to Captain Perry. The Modocs were placed under strong guard.

Captain Jack has not spoken since his surrender. He presents a most woe-begone appearance. Appearing in an old faded army blanket, his head buried in his hands, he sits, and refuses to speak. The Modocs say Jack is insane, with much method, however.

CHICAGO, June 2.—Advices indicate with certainty the election of John Scholfield for Supreme Court Judge in the second district, and the re-election of Chief Justice Lawrence in the fifth, over Craig.

Fifteen thousand votes were cast at the judicial election to-day. All the judges were re-elected, Booth's majority being 2400, while the other four received an average of 6,000.

CHAMPAIGN, June 2.—Champaign county, in the 16th judicial district, gave C. B. Smith about 1200 majority.

DECATUR, ILLINOIS:

Tuesday Evening, June 3:

THE RESULT.

The returns from the judicial election, though still somewhat meager, are sufficient to indicate that C. B. Smith is elected by a considerable majority. To prevent such a result we have labored faithfully, though we are now free to say that we have never had much hope of a different one. It has been our firm and honest conviction that the best interests of all classes of citizens would be best subserved by the election of Judge Gallagher, and, believing so, we did all in our power to achieve a victory. We have no regrets to express for our course in this matter, but sincerely trust that the successful candidate may prove to be a better officer than his past record and character would warrant us to expect. He is our judge, as well as the judge of those who supported him, and we are not sinister enough to hope that he may turn out badly merely to justify our predictions. We are willing to bow gracefully to the popular verdict, and cherish the hope that the country has not altogether gone to the dogs because of the defeat of our candidate. The contest has been a bitter one, but now that it is over we trust that the animosities engendered by it may die out, and everything assume the roseate hue that adds so much to the popular comfort.

THE interlacing of different branches of industry is a curious study. For example, the state constabulary of Massachusetts had no sooner indicated their intention to enforce the law forbidding the sale of malt liquors than the price of milk advanced. This is not to be attributed, as might be supposed, to an increased demand; for when the guzzler of beer finds himself deprived of his preferred fluid, he does not rush immediately to the nearest dairy and seek compensatory comfort in milk. The explanation is this The dairymen largely use Brewers' grain as provender for their milch-cows. This kind of feed is cheap and nourishing, and though there are doubtless some objections to its use, it is not to be denied that it increases the yield of milk, especially as compared with dry food. But the brewers have taken the alarm at the activity of the authorities, and have suspended operations. Thus the milk producers are shut off from this large source of food supply for their animals, which compels them to use meal and other costly substitutes. This is quite sufficient as a reason for them to increase the price of their commodity.

AND now comes the story of the woman who dreamed a dream in which was depicted with dire reality the woeful occurrence of the bridge disaster at Dixon. Why did she not tell her warning and save the lives of those fated victims for whom that beautiful Sabbath morning dawned in sudden death? No doubt this lady will gain a notoriety equal to if not greater than that of Mrs. O'Leary's cow or Washington's body servant. There hasn't been an aged negro died for the last twenty years but that he was the one, identical, particular favorite servant of the "Father of his Country," and there hasn't been a cow for the last two years, that was whittled up into "hash," but that she was the same identical, particular cow whose playful kick gave us "The History of Chicago as it *was*," and now again for years and years there won't be a woman who will dream a dream, but will be the same, identical, particular woman who dreamed all about the Dixon disaster, days *before* it occurred and then forgot to say anything of it until days *after* the poor victims had "found rest." Out upon *such* dreams! Don't tell them.

One of the greatest drains on the wealth of this country is caused by the popular fashion of visiting Europe, which is largely stimulated by the Exposition at Vienna this summer. It is estimated that 21,000 first class passengers will cross the Atlantic the present season. These tourists will pay about $3,300,000 passage money, and it is calculated that they will spend in travel and hotel bills on the continent some $8,000,000 more. Most of them will take with them very little clothing or jewelry, but will come back with a very large supply. The number of Americans who visit Europe for pleasure outnumbers by many times the Europeons who come to this country for a like purpose. Besides this, the foreigners who come here spend hardly anything [illegible] and in the case of either [illegible] the passage money goes to [illegible] Over a million dollars [illegible] gold is a very large sum for [illegible] pour incessantly to spend in for-

CHICAGO, AS SEEN BY THE DANBURY "NEWS" MAN.

From the Danbury News, May 28

Chicago is on a prairie, and consequently the streets are a dead level and as straight as an arrow. Its newspapers are widely known, and several of them have grand offices. When a New York paper puts up a fine office, it announces it repeatedly before the plans are drawn and other papers speak of it, and then a magizine article is made up about it, and the country generally is stirred up and made miserable on account of it; the Chicago newspapers don't do so. They don't say anything about it until their building is finished and occupied, and yet, with a single exception, that of the *Herald*, they have finer offices than their New York contemporaries. Your correspondent has met some of these people, and finds them as genial as their enterprise is undisputed.

They have tornadoes here. I have read of them. I am going away at midnight, and there is a gentle zephyr now playing over the city in honor of the event. Last night a dead calm hung over the city, and eight or ten dwelling houses were blown down. There is a stiff breeze now, and it is not likely a whole paving-stone will be found in the city by morning.

Chicago is ahead in about everything but the means of transportation. The street cars look as if they were born in an alley, and some of the omnibuses are double-deckers, and are merely mud dredges disguised with paint.

A hitching post is a rarity here.—When an Eastern man comes across a hitching post in Chicago he sits down and cries They faston horses by a strap to an iron weight which is left on the sidewalk. These weights occupy a prominent position in a runaway. When a Chicago man sees a runaway horse coming along his street he merely says: "Heaven protect us," and crawls under a stoop.

COMPOUNDING A FELONY.

A late dispatch from Troy, N. Y., gave the pleasant information that "three hundred thousand dollars worth of bonds, stolen from the Waterford (N. Y.) bank, have been returned by the thieves, who have received thirty-five per cent and immunity from punishment."

Thirty-five per cent. of three hundred thousand dollars is one hundred and five thousand dollars; a sum which will very handsomely pay a dozen ruffians for making a night trip to Waterford, scaring a cashier into unlocking the safe of his institution, and then keeping quiet about it for a few months. The arrangement above alluded to used to be called compounding felony, and was supposed to be prohibited by law. A few more examples of its successful and unchallenged introduction into practice will make the business of bank robbing on shares nearly as popular and remunerative as that of watering railroad stock, or cornering gold in Wall street And indeed, why not?—*Bloomington Pantagraph.*

THE managers of most of the Western railways are moving toward the abolishment of the free pass system. They complain of it as an immouse burden, amounting on some of the roads to nearly one tenth of the entire passenger traffic. They also assert that it is an unjust discrimination," that by the laws of Illinois, at least, they have no right to practice. If the taxation, that the system entails upon the companies can be raised, we shall have one more plea for cheaper passenger rates, and the benefit will go to the public where it belongs. Give the farmers cheap passenger fare and they will travel more, see more, and know more of the business of the world that surrounds them. Cut off the passes and put down the rates!—*Prairie Farmer.*

All of which is very true, but the query naturally arises whether there is much hope of the abolishment of the free pass system as long as the papers which assume to be the special champions of the farmers, continue to ask for and receive more passes than anybody else.

JUDICIAL ELECTIONS

PROBABLE ELECTION OF LAWRENCE AND SCHOLFIELD.

The old Judges Re-elected in Chicago,

BEECHER OUT IN A CARD.

NEW YORK, June 2.—The following card was published to-day.

To the Editor of the Brooklyn Eagle:

DEAR SIR: I have maintained silence respecting the slanders which have for some time past followed me. I should not speak now but for the sake of relieving another of unjust imputations. The document which was recently published, bearing my name with others, was published without consultation with me or with Mr. Tilton; nor with any authorization from us. If that document should lead the public to regard Mr. Tilton as the author of the calumnies to which it alludes, it will do him great injustice. I am unwilling that he should even seem responsible for injurious statements whose force was derived wholly from others.

HENRY WARD BEECHER.

CHICAGO, June 2.—The election in this county to-day for five judges of the Circuit Court has resulted in the election of all the incumbents—Farwell, Williams, Rogers, Tree and Booth. A strong fight was made against the latter by the whisky party, on account of a recent decision by him against the liquor trade, and that element concentrated upon Sam. Ashton. Much fear was felt lest he should be successful, but the returns to midnight indicate that Booth has 2,500 majority in the city and about 3,500 in the county. The other candidates had no opposition. The vote was light, being only about 13,000 in the city and under 20,000 in the county.

In Lemont, a stronghold of the liquor men, Ashton received only 32 to 718 for Booth. In Evanston, a Methodist suburb, Booth received every vote, 418. Temperance men are greatly rejoiced at the result, as the Germans had united strongly for Ashton.

Returns from the Fifth District make the contest between Craig and Lawrence, for Supreme Judge, still doubtful, with a probability for Lawrence.

NEW ORLEANS, June 2.—In his address, Governor McEnery says:—"President Grant as chief magistrate of the nation, has assumed the high and grave responsibility of foisting upon the people of this State usurpation without precedent in this or any other free country. He is answerable before the bar of public opinion for this high-handed measure. The President, with the army and navy at his command, has the physical power to coerce the people of this State into any line of policy he may dictate. It would be folly and madness to interpose resistance likely to bring up conflict with the national authority. Yet the deeply fixed sentiments of irresponsible hostility in the minds and hearts of an outraged people, against the vilest usurpation ever attempted to be fastened upon freemen, will find their full scope and vent. I advise that these manly and patriotic sentiments take form and shape through all moral and legal agencies possible to be used. In the meantime, I trust peace and order may reign supreme throughout the State, and that our industrial pursuits will be unembarrassed by political difficulties; and, especially, I urge upon the people of the two races numerically nearly equal in this State, to cultivate one towards another nothing but feelings of amity, good feeling and mutual understanding."

SAN FRANCISCO, June 2.—The following dispatch is just received here via Yreka:

CAMP AT APPLEGATE'S HOUSE, CLEAR LAKE, June 1.—The troops this morning were divided into scouting parties and sent out as scouts after Captain Jack. Captain Perry of the 1st Cavalry, who was sent out yesterday, had not been heard from when the scouting party left this morning. An hour after the scouting party left, Captain Perry's mounted men were seen in the distance rushing toward camp, and when the camp shouts were heard from them of "We have got Captain Jack."

Captain Perry, who captured Jack, had been out twenty-four hours. At 10 o'clock Sunday morning, Perry's scouts struck a fresh trail and followed it three miles above the mouth of Willow Creek, when Captain Jack's hiding place was discovered. He was completely surrounded. Captain Perry was making preparations to attack the Modocs, when suddenly a Modoc appeared with a white flag. The Modoc met a Warm Spring Indian, and reported that Jack was anxious to surrender. Five Modocs were sent to meet Jack. Captain Jack then, with two warriors, five squaws and seven children, surrendered to Captain Perry. The Modocs were placed under strong guard.

Captain Jack has not spoken since his surrender. He presents a most woe-begone appearance. Appearing in an old faded army blanket, his head buried in his hands, he sits, and refuses to speak. The Modocs say Jack is insane, with much method, however.

CHICAGO, June 2.—Advices indicate with certainty the election of John Scholfield for Supreme Court Judge in the second district, and the re-election of Chief Justice Lawrence in the fifth, over Craig.

Fifteen thousand votes were cast at the judicial election to-day. All the judges were re-elected, Booth's majority being 2400, while the other four received an average of 6,000.

CHAMPAIGN, June 2.—Champaign county, in the 16th judicial district, gave C. B. Smith about 1200 majority.

PEOPLE'S MEDICAL GAZETTE.

ABOUT the first of June we will issue the first number of the PEOPLE'S MEDICAL GAZETTE, a monthly journal, intended for general circulation. It will be filled with short articles, plainly written, on Hygiene; appropriate treatment for diseases and accidents when a doctor cannot be conveniently had—and matters of scientific interest connected with medicine.

It will afford a medium of communication between physicians who wish to bring their cases and mode of treatment directly before the people, and the intelligent reader, who is anxious to inform himself of the means of *prevention* and *cure* of the ailments for which he is in the habit of soliciting professional aid. The ground is tabooed, but no organization can now set metes and bounds to knowledge. People will read and investigate, and the regular physician cannot command greater confidence than the irregular, so long as people are not apprised of his merits. If he has not merit he has no cause to complain of want of patronage, if he has, and with pharasaical pride clothes himself in assumed dignity and in unmeaning technicalities, he ought not to be employed.—The utmost reticence does not proclaim the scientific man, nor does advertising proclaim the quack. Quackery consists in a discrepancy between the promise and the ability to perform—a want of correspondence between the physician and his pretensions.

The first number will be a duodecimo, containing about twenty pages of reading matter. Subsequent numbers will be much larger.

SUBSCRIPTION PRICE, $1.50—invariably in advance.

ADVERTISEMENTS are solicited from physicians who desire extra copies for local circulation, and from business men generally.

We will print 8,000 copies of the first number for general distribution.

Remittances and communications must be sent to

CITY DEPARTMENT.

...Hot! That's as mild as we can put it.

...This is what the confectioners call an ice cream day.

...The frizzling, squizzling, squirting, dress-ruining sprinkling cart, made its first appearance on the street to-day.

...Dr. and Mrs. Aikman, of Ingersoll, Ontaroo, arrived on the afternoon train from the east to-day, to attend the funeral of Mrs. Aikman's father, the late A. P. Griswold.

...The rigid examination for promotion to the high school is just now agitating the juvenile mind.

...The Indiana & Illinois Central Railroad will commence running regular trains on Monday—a passenger and a freight, each of which will make a round trip every day.

...Last night was the hottest of the season. Up to midnight the air was close and sleeping was out of the question—especially with those who were at the meeting of the council.

...Freight business over the Toledo, Wabash & Western has been simply immense for the past month. The business of this road is constantly increasing, and is really beyond the capacity of their present number of cars.

...Those fellows that prowl about nights in quest of mischief are admonished that they had better desist from injuring fences and other property, or they'll "catch the goose." They are better known than they suppose they are, and if they don't quit they will have to settle their little business with some of the squires.

...A noted murderer, who had been guilty of terminating a score or more of human lives, was at last overtaken and convicted of murder in the first degree. On being asked by the court what he had to say as a reason why sentence of death should not be passed upon him, replied that he considered such a sentence very unjust, upon the ground that doctors who are protected and honored in their profession were continually engaged in assisting to get folks into this world of trouble, while the worst he had ever done was to lend a hand in getting them out of it.

...This matter of measuring milk, and reporting the business done by different bovines in a week, is waking up the natives. We expect to give some figures in a few days that will beat any thing yet reported.

...The weather now seems to be fairly settled and farmers can get down to business. Quite a good deal of corn is yet to be planted, but with this style of weather vegetation will come forward rapidly and good crops may yet be realized.

...The Milwaukee School Board includes the following euphonious names: Hundhausen, Kuenzle, Wasweiler, Zeigler, Schnurstein, Freitag, Koetting, Meinecke, Buuete, Obermann and Trumf.—*Chicago Post.*

This would make a good lesson for a spelling class, and must be particularly beneficent in strengthening the memory.

...The Katie Putnam dramatic company are playing Bot: or through fire and water at McVicker's theatre, Chicago. Katie assumes the role of Bot Bricktop. Her playing has been greatly improved since she was here last. The press everywhere speaks of her in the most flattering terms. The Washington (D. C.) *Republican* compares her with Lotta. Can't Decatur's old favorite be induced to come back and give us a season in Smith's Opera house?

...We are without a police record to-day. This is good for the people, but hard on the squires.

...Don't forget that the Universalist concert and festival has been changed from the church to Brennaman's new hall. A rich treat is preparing for those who may attend.

...We have a pet mouse in our office that is getting quite familiar. He runs about our table with the utmost freedom, and occasionally refreshes himself by dipping into the paste dish. We make him welcome to the hospitalities of the establishment.

...Capt. Joab Wilkinson gave us a call this morning. The Captain is feeling rather blue over the election returns.

...We are sorry to learn from Major Henry Hummell, that the ugly gash he gave his foot a few days ago is giving him a good deal of trouble. It has been gradually growing worse for two or three days. It will be some time before he gets on his pins again.

...Mr. James Huddleston, of this city, has a cow which gives 175 quarts of milk per week. Next.

Mr. J. R. Henard, of Hickory township, informs us that he has a cow which gives 14 pounds of milk every day. This reduced to measure would be about 200 quarts per week. This cow is one of a pair of twins, the other one being just as good.

...There are several things in the wind of which we cannot speak as yet, but will post the public as soon as proper. We shall always feel bound to respect the wishes of those who, for good reasons, desire that any matter should be kept from the public.

CONDOLENCE.

The committee appointed at a meeting of Macon Lodge No. 8, A. F. & A. M., to prepare preamble and resolutions, make the following report:

WHEREAS, Our well beloved brother Thomas Handy departed this life at his residence in Decatur, Illinois, May 30th, 1873, in the 41st year of his age; and

WHEREAS, It has pleased the Great Architect of the universe, by his all-wise decree, to remove from earth our departed brother, to dwell in the Lodge on high, where we hope and trust, when the summons of the Great Grand Master calls us hence, to meet our brother on the great level of eternal life; therefore be it

Resolved, That we attend his funeral as a Lodge, and our last sad duty be performed with Masonic honors.

Resolved, That we deeply deplore his death; cut down in the prime of life from his usefulness and companionship with society, and his love, care, advice and protection of his family.

Resolved, That we deeply sympathize with the bereaved family in their sore affliction.

Resolved, That the city papers be requested to publish the foregoing preamble and resolutions, and that the Secretary be instructed to furnish an official copy of the same to the widow of our deceased brother.

J. R. GOBIN,
GEO. W. BRIGHT,
S. F. GREER. } *Committee.*

Board of Supervisors.—The June term of the Supervisors' Court opened this morning. A communication was received by the Board from H. B. Hammond, President of the Ind. & Ill. Central R. R., inviting the members to pass over the line of the new road, to see that it has been built according to the stipulations entered into by the county at the meeting of the Board in June, 1869. The communication will probably be acted upon this afternoon.

Real Estate Transfers.—The following transfers of real estate have been filed for record in the Macon county Recorder's office, since our last report:

John Warren and wife to David N Carlton; Lots 1, 2, 3 and 4, block 1, Wartonsburg; warranty deed, dated May 21, 1873; $137,50

Chas T Lewis and wife to Emily V Davis; Lots 2, 3 and 6, block 22, Blue Mound; warranty deed, dated May 30, 1873; $22.

Henry White and wife to John Stephens; Lots 1 and 2, block 1, Smith & Co.'s Addition to Decatur; warranty deed, dated April 26, 1873—$725.

Patrick Walsh to Thomas Walsh; Lots 3 and 4, block 3, Railroad Addition to Macon; warranty deed, dated April 23, 1873—$400.

...Mrs. S. M. Fowler, mother-in-law of Mr. J. A. Brown of the *Tribune*, who has been sick for the past five weeks, with brain fever, died last night at her residence, about a mile east of the city, aged 51 years.

The funeral will take place to-morrow at 9 o'clock, A. M., at the house, where a prayer will be offered. The remains will then be taken to the First M. E. Church, where a sermon will be preached at 10 A. M. Relatives and friends are invited to be present.

Mrs. Fowler was an estimable lady, and will be greatly missed, not only in the home circle, but in her neighborhood, and by the community generally.

...Jimmy Carroll, a lad of sixteen, residing in the first ward, has just returned home after three weeks' absence on a little independent excursion. From this city he had traveled to Champaign, where he remained several days with some acquaintances. He next went to Chicago, from which city he returned direct to Decatur. It is almost needless to say that he was glad to get back. Runaway trips are getting alarmingly numerous; This is about the fourth or fifth that the REPUBLICAN has recorded lately, while the policemen at the depot report that scarcely a night elapses but what some adventurous youth hops in a box car for a short trip to Pekin, Springfield, Lafayette, or some other not far distant town. Have Decatur boys a mania for running away?

Boarders.—A few day boarders can be accommodated at the north-west corner of Prairie and Church streets.

May 28-1w MRS. H. B. HALSTED.

THE ELECTION.

The following returns from the judicial election yesterday are all we have received up to the hour of going to press:

Bement	A tie.	

From Champaign county we have no complete returns. The city of Champaign gave Smith a majority of 77, and Urbana gave a majority of 259 for Gallagher.

Declines.—Brigham Young this morning telegraphed C. B. Smith, declining the appointment of Master in Chancery for Macon county. His reasons are that the feeble state of his health demands rest, recreation and travel. He has, however, recommended John Lindsay for the position, and there can be but little doubt, he says, of the success of his recommendation.

St. John's Episcopal Church.—Services at this church this evening. Preaching by Bishop Whitehouse, after which the right of confirmation will be administered.

Chicago Jubilee.—Tickets to the great Chicago jubilee and return, are seven dollars. Full fare would be fifteen dollars. To guard against fraud, excursionists are obliged to buy a ticket to the concert which costs one dollar. Excursion tickets will be good till next Sunday. Our citizens should take advantage of this opportunity to visit Chicago.

...The St. Louis *Democrat* is responsible for the following:

People who are not sure of heaven are flocking to Danville, N. H., this summer. There is not a lawyer, doctor, lightning-rod man, sewing machine agent, nor hotel clerk in the place, while more than four hundred beautiful, long-haired, rosy cheeked, bright eyed maidens, with natural teeth and white dresses, meander through the streets at eventide, chewing gum and smiling on the few young men who have heard of this elysium before.—Young men of Missouri, sell your horse-pistols and go East.

This is a very pretty picture of an earthly paradise to be sure, but we would take the liberty to say to any young men who propose to emigrate to this delightful country, while selling your 'horse-pistols' be sure and lay in a good store of needles, thread and buttons, for sewing machines are prohibited there, and the lovely creatures with natural teeth do nothing but meander through the streets and chew gum. You will be pretty certain to be obliged to darn your own socks, sew on your own buttons, and do your own stitching generally.

Excellent and rich-flavored Ice Cream manufactured by machinery. Large and full dishes, 5 and 10 cents, at

j29d MILLER'S CONFECTIONERY.

At Cash to Close Business.—Having determined to close our present business, we offer our entire stock of Carpets, Wall Paper, Curtains, &c., *at cost*, for cash. Our stock is new and desirable. This is the best opportunity ever offered to obtain goods at cost. We mean all we say—the stock must be closed out in the next sixty days. Come early and make selections. WM. J. QUINLAN & BRO.

m20 d&w1m

A shrewd trick was recently played by a man in San Francisco. He was well acquainted with a widow in the city who was very wealthy. One day he suddenly felt very ill and sent for a lawyer, persisting in making his will. He left a great quantity of valuable lots and much personal property to the widow. The next day he recovered, but was temporarily embarrassed for funds. The grateful widow offdorsed his note for him, and he raised the money and left.

Notices of the Press:

The ever-increasing circulation of this excellent monthly proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudice or depraved tastes.—*Boston Globe.*

The character which this *Magazine* possesses for variety, enterprise, artistic wealth and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. HALL'S VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whisky, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point or repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Scrofulous Sores, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuge, no anthelmintics will free the system from worms like these Bitters.

Ayer's

Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so unceasing and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume

Ayer's

Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities or diseases that have lurked in the system for years soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhœa, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By restoring the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

The Chemistry of Dieting Everybody has been produced in natural water which contains in such proportion the qualities of nutritious food and curative medicine, as to restore health and strength to the afflicted. Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whisky, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point or repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

Ayer's

Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so unceasing and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume

Ayer's

Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities or disease that have lurked in the system for years soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhœa, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By restoring the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.
